Subject Index — Index des sujets

A

Actinobacillus pleuropneumoniae

- Blood gas stability and hematological changes in experimentally-induced acute porcine pleuropneumonia, 95
- Comparison of conventional and long-acting oxytetracyclines in prevention of induced *Actinobacillus (Haemophilus) pleuropneumoniae* infection of growing swine, 400
- Identification of the heat-labile hemolysin of *Actinobacillus pleuropneumoniae* serotype 1, 251
- Plasmid mediated antimicrobial resistance in Ontario isolates of *Actinobacillus (Haemophilus) pleuropneumoniae*, 38

Acupuncture

- Electroacupuncture in the treatment of chronic lameness in horses and ponies: A controlled clinical trial, 239

Adenocarcinoma

- Adenocarcinoma of the salivary gland in a white Swiss mouse, 363

Adenovirus

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48

Adrenal blocking chemicals

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48

African swine fever

- Detection of African swine fever virus antibodies by immunoblotting assay, 105

American buffalo

- Isolation, characterization and *in vitro* mitogenic stimulation of peripheral blood lymphocytes from an American buffalo, 493

Amphotericin B

- Nephrotoxicity of amphotericin B in dogs: A comparison of two methods of administration, 23

Anatomy

- Morphological studies on the venous drainage of the trachea in the neck of sheep, 255

Antimicrobial resistance

- Plasmid mediated antimicrobial resistance in Ontario isolates of *Actinobacillus (Haemophilus) pleuropneumoniae*, 38
- The prevalence of verocytotoxin-producing *Escherichia coli* and antimicrobial resistance patterns of nonverocytotoxin-producing *Escherichia coli* and *Salmonella* in Ontario broiler chickens, 411

Antiviral drugs

- The interferon sensitivity of selected porcine viruses, 52

Articular cartilage

- Effects of intramuscular polysulfated glycosaminoglycan on chemical and physical defects in equine articular cartilage, 224

Atrophic rhinitis

- *Pasteurella multocida* and *Bordetella bronchiseptica* in atrophic rhinitis and pneumonia in swine, 295

B

Bacterial kidney disease

- A field evaluation of an indirect fluorescent antibody-based broodstock screening test used to control the vertical transmission of *Renibacterium salmoninarum* in Chinook salmon (*Oncorhynchus tshawytscha*), 385

Bluetongue

- Trajectory analysis and bluetongue virus serotype 2 in Florida 1982, 100

Bordetella bronchiseptica

- *Pasteurella multocida* and *Bordetella bronchiseptica* in atrophic rhinitis and pneumonia in swine, 295

Bovine embryos

- Protein A gold identification of ureaplasmas on the bovine zona pellucida, 172

Bovine herpesvirus type 1

- Bovine herpesvirus-1 and parainfluenza-3 virus interactions: Clinical and immunological response in calves, 62

Bovine leukemia virus

- Control of bovine leukemia virus infection in dairy herds by agar gel immunodiffusion test and segregation of reactors, 108
- Protection of colostral antibodies against bovine leukemia virus infection in calves on a California dairy, 424

Bovine respiratory syncytial virus

- Failure to detect antibody to bovine respiratory syncytial virus in bovine fetal serum, 103

Bronchoalveolar lavage

- Bronchoalveolar lavage in the cat: Cytological findings, 259

Brucella abortus

- Plasmid transfer and plasmid-mediated genetic exchange in *Brucella abortus*, 326
- Properties and partial genetic characterization of Nepean phage and other lytic phages of *Brucella* species, 319

Brucellaphage

- Properties and partial genetic characterization of Nepean phage and other lytic phages of *Brucella* species, 319

C

Calf diarrhea

- The effects of feeding milk to diarrheic calves supplemented with oral electrolytes, 477

Canine adenovirus

- Effects of vaccines on the canine immune system, 154

Canine distemper

- Effects of vaccines on the canine immune system, 154

Cats

- Bronchoalveolar lavage in the cat: Cytological findings, 259
- Immunohistochemical detection of feline calicivirus in formalin-fixed, paraffin-embedded specimens, 331

Cattle

- 2'-5'-oligo-A-synthetase activity in bovine peripheral blood leukocytes and alveolar macrophages exposed to recombinant interferons and tumor necrosis factor- α , 161
- An evaluation of the multiple-breath nitrogen washout as a pulmonary function test in dairy cattle, 133
- Aspects of the epidemiology of nematode infections in a cow-calf herd in Ontario, 336
- Bovine herpesvirus-1 and parainfluenza-3 virus interactions: Clinical and immunological response in calves, 62
- Caudal epidural analgesia in cattle using xylazine, 486
- Comparison of dot immunobinding assay, enzyme-linked immunosorbent assay and immunodiffusion for serodiagnosis of tuberculosis, 405
- Control of bovine leukemia virus infection in dairy herds by agar gel immunodiffusion test and segregation of reactors, 108
- Delayed resumption of development of inhibited *Cooperia oncophora* in a yearling calf, 111
- Diagnosis of a copper deficiency and effects of supplementation in beef cows, 343
- Diagnostic specificity, sensitivity and cross-reactivity of an enzyme-linked immunosorbent assay for the detection of antibody against *Leptospira interrogans* serovars *pomona*, *sejroe* and *hardjo* in cattle, 285

- Factors associated with average daily gain, fever and lameness in beef bulls at the Saskatchewan central feed test station, 349
- Failure to detect antibody to bovine respiratory syncytial virus in bovine fetal serum, 103
- Failure to maintain luteal function: A possible cause of early embryonic loss in a cow, 279
- Health and metabolic responses of young calves housed at -30°C to -8°C , 268
- Induction of pulmonary antibodies to *Pasteurella haemolytica* following intraduodenal stimulation of the gut-associated lymphatic tissue in cattle, 371
- Plasmid transfer and plasmid-mediated genetic exchange in *Brucella abortus*, 326
- Presence of bacterial glycocalyx and fimbriae on *Pasteurella haemolytica* in feedlot cattle with pneumonic pasteurellosis, 167
- Properties and partial genetic characterization of Nepean phage and other lytic phages of *Brucella* species, 319
- Protection of colostral antibodies against bovine leukemia virus infection in calves on a California dairy, 424
- Protein A gold identification of ureaplasmas on the bovine zona pellucida, 172
- Prevention of clinical coliform mastitis in dairy cows by a mutant *Escherichia coli* vaccine, 301
- Recombinant human interleukin-2 induced mitogenic proliferation of *in vitro* unstimulated bovine intestinal lymphocytes, 68
- Relationship between test-day measures of somatic cell count and milk production in California dairy cows, 182
- The associations between milk production, milk composition and *Salmonella* in the bulk milk supplies of dairy farms in Ontario, 188
- The detection of bovine respiratory syncytial virus in formalin fixed bovine lung with commercially available monoclonal antibodies and avidin biotin complex immunohistochemistry, 366
- The effects of feeding milk to diarrheic calves supplemented with oral electrolytes, 477
- The frequency, distribution and effects of antibodies to seven putative respiratory pathogens on respiratory disease and weight gain in feedlot calves in Ontario, 355
- Thermal insulation of young calves exposed to cold, 275
- Simple nonrebreathing valves for use with large mammals, 143
- Trajectory analysis and bluetongue virus serotype 2 in Florida 1982, 100

Chickens

- Comparison of serum biochemical profiles of male broilers with female broilers and white Leghorn chickens, 7
- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48
- Influence of dietary charcoal on ochratoxin A toxicity in Leghorn chicks, 449
- The prevalence of verocytotoxin-producing *Escherichia coli* and antimicrobial resistance patterns of nonverocytotoxin-producing *Escherichia coli* and *Salmonella* in Ontario broiler chickens, 411

Circovirus

- Porcine circovirus antigens in PK-15 cell line (ATCC CCL 33) and evidence of antibodies to circovirus in Canadian pigs, 431

Cold exposure

- Health and metabolic responses of young calves housed at -30°C to -8°C , 268
- Thermal insulation of young calves exposed to cold, 275

Colic

- Prognosis in equine colic patients using multivariable analysis, 87

Cooperia oncophora

- Delayed resumption of development of inhibited *Cooperia oncophora* in a yearling calf, 111

Copper

- Plasma and liver copper values in horses with equine degenerative myeloencephalopathy, 29

Copper deficiency

- Diagnosis of copper deficiency and effects of supplementation in beef cows, 343

Corynebacterium pseudotuberculosis

- The use of a microagglutination assay for the detection of antibodies to *Corynebacterium pseudotuberculosis* in naturally infected sheep and goat flocks, 313

Coxiella burnetii

- Q fever: An emerging public health concern in Canada, 1

Culicoides

- Trajectory analysis and bluetongue virus serotype 2 in Florida 1982, 100

Cytology

- Bronchoalveolar lavage in the cat: Cytological findings, 259

D

Dexamethasone

- Effects of dexamethasone on gonadotrophin secretion in the gonadectomized sow and boar, 490
- Effects of perinatal high dose dexamethasone on skeletal muscle development in rats, 17

Dogs

- A comparative histochemical and morphometric study of canine skeletal muscle, 125
- Effect of loperone hydrochloride on gastroesophageal sphincter pressure in healthy dogs, 248
- Effects of vaccines on the canine immune system, 154
- Esophageal acid clearance test in healthy dogs, 244
- Follow-up studies by large intestinal biopsies and necropsy in dogs with clinical signs of large bowel disease, 473
- Follow-up studies by peroral gastric biopsies and necropsy in vomiting dogs, 468
- Nephrotoxicity of amphotericin B in dogs: A comparison of two methods of administration, 23
- Protection of dogs against death from experimental rabies by postexposure administration of rabies vaccine and hyperimmune globulin (human), 434
- Safety and immunogenicity of ERA® strain of rabies virus propagated in a BHK-21 cell line, 438
- Stability of canine factor VIII: Coagulant activity *in vitro*, 264

Dot immunobinding assay

- Comparison of dot immunobinding assay, enzyme-linked immunosorbent assay and immunodiffusion for serodiagnosis of paratuberculosis, 405

E

Eastern equine encephalitis

- Eastern equine encephalitis in Quebec and Connecticut, 1972: Introduction by infected mosquitoes on the wind, 76

Enzyme-linked immunosorbent assay

- Comparative assessment of a double antibody enzyme immunoassay test kit and a triple antibody enzyme immunoassay for the diagnosis of *Trichinella spiralis spiralis* and *Trichinella spiralis nativa* infections in swine, 497
- Comparison of dot immunobinding assay, enzyme-linked immunosorbent assay and immunodiffusion for serodiagnosis of paratuberculosis, 405
- Diagnostic specificity, sensitivity and cross-reactivity of an enzyme-linked immunosorbent assay for the detection of antibody against *Leptospira interrogans* serovars *pomona*, *sejroe* and *hardjo* in cattle, 285
- Preparation of *Mycoplasma hyopneumoniae* antigen for the enzyme-linked immunosorbent assay, 176

Epidemiology

- An assessment of residual ovine nematodes on pasture under Maritime conditions, 340

Epidural

- Caudal epidural analgesia in cattle using xylazine, 486

Equine degenerative myeloencephalopathy

- Plasma and liver copper values in horses with equine degenerative myeloencephalopathy, 29

Erythromycin

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48

Escherichia coli

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48
- Effects of *Escherichia coli* Shiga-like toxins (verotoxins) in pigs, 306
- Prevention of clinical coliform mastitis in dairy cows by a mutant *Escherichia coli* vaccine, 295

- Requirement for capsular antigen KX105 and fimbrial antigen CS1541 in the pathogenicity of porcine enterotoxigenic *Escherichia coli* O8:KX105 strains, 43
- The prevalence of verocytotoxin-producing *Escherichia coli* and antimicrobial resistance patterns of nonverocytotoxin-producing *Escherichia coli* and *Salmonella* in Ontario broiler chickens, 411

Esophageal acid clearance test

- Esophageal acid clearance test in healthy dogs, 244

F

Factor VIII:Coagulant

- Stability of canine factor VIII coagulant activity *in vitro*, 264

Feline calicivirus

- Immunohistochemical detection of feline calicivirus in formalin-fixed, paraffin-embedded specimens, 331

Fever

- Factors associated with average daily gain, fever and lameness in beef bulls at the Saskatchewan central feed test station, 349

Fish

- A field evaluation of an indirect fluorescent antibody-based broodstock screening test used to control the vertical transmission of *Renibacterium salmoninarum* in Chinook salmon (*Oncorhynchus tshawytscha*), 385

Flunixin meglumine

- Clinical and pathological effects of flunixin meglumine administration to neonatal foals, 195

Food hygiene

- Destruction of *Trichinella spiralis spiralis* during the preparation of the "dry cured" pork products prosciutto, prosciuttini and Genoa salami, 80
- Survival of *Salmonella typhimurium* and *Staphylococcus aureus* in Genoa salami of varying salt concentration, 84

Foxes

- Immunization of foxes by the intestinal route using an inactivated rabies vaccine, 56
- Safety and immunogenicity of ERA® strain of rabies virus propagated in a BHK-21 cell line, 438

G

Gastric biopsy

- Follow-up studies by peroral gastric biopsies and necropsy in vomiting dogs, 468

Gastric ulceration

- The protective effects of sualfate and ranitidine in foals experimentally intoxicated with phenylbutazone, 231

Gastritis

- Follow-up studies by peroral gastric biopsies and necropsy in vomiting dogs, 468

Gastroenterology

- Clinical and pathological effects of flunixin meglumine administration to neonatal foals, 195

Gastroesophageal sphincter pressure

- Effect of loperone hydrochloride on gastroesophageal sphincter pressure in healthy dogs, 248

Gastrointestinal nematodes

- Aspects of the epidemiology of nematode infections in a cow-calf herd in Ontario, 336

Glässer's disease

- Preliminary assessment of a *Haemophilus parasuis* bacterin for use in specific pathogen free swine, 390

Goats

- The use of a microagglutination assay for the detection of antibodies to *Corynebacterium pseudotuberculosis* in naturally infected sheep and goat flocks, 313

Gonadotrophin secretion

- Effect of dexamethasone on gonadotrophin secretion in the gonadectomized sow and boar, 490

H

Haemophilus parasuis

- Preliminary assessment of a *Haemophilus parasuis* bacterin for use in specific pathogen free swine, 390

Hemolysin

- Identification of the heat-labile hemolysin of *Actinobacillus pleuropneumoniae* serotype 1, 251

Hemophilia

- Stability of canine factor VIII coagulant activity *in vitro*, 264

Horses

- Attempts to restore abduction of the paralyzed equine arytenoid cartilage I. Nerve-muscle pedicle transplants, 202
- Attempts to restore abduction of the paralyzed equine arytenoid cartilage II. Nerve implantation (pilot study), 210
- Attempts to restore abduction of the paralyzed equine arytenoid cartilage III. Nerve anastomosis, 216
- Clinical and pathological effects of flunixin meglumine administration to neonatal foals, 195
- Eastern equine encephalitis in Quebec and Connecticut, 1972: Introduction by infected mosquitoes on the wind, 76
- Effects of intramuscular polysulfated glycosaminoglycan on chemical and physical defects in equine articular cartilage, 224
- Electroacupuncture in the treatment of chronic lameness in horses and ponies: A controlled clinical trial, 239
- Pharmacokinetics and body fluid and endometrial concentrations of ormetoprim-sulfadimethoxine in mares, 12
- Plasma and liver copper values in horses with equine degenerative myeloencephalopathy, 29
- Prognosis in equine colic patients using multivariable analysis, 87
- Simple nonbreathing valves for use with large mammals, 143
- The protective effects of sucralate and ranitidine in foals experimentally intoxicated with phenylbutazone, 231
- Urinary excretion of pentoxifylline and its metabolites by Standardbred mares, 147

I

Immunoblotting assay

- Detection of African swine fever virus antibodies by immunoblotting assay, 105

Immunodiffusion

- Comparison of dot immunobinding assay, enzyme-linked immunosorbent assay and immunodiffusion for serodiagnosis of paratuberculosis, 405

Immunohistochemistry

- Immunohistochemical detection of feline calicivirus in formalin-fixed, paraffin-embedded specimens, 331
- The detection of bovine respiratory syncytial virus in formalin fixed bovine lung with commercially available monoclonal antibodies and avidin biotin complex immunohistochemistry, 366

Interferon

- 2'-5'oligo-A-synthetase activity in bovine peripheral blood leukocytes and alveolar macrophages exposed to recombinant interferons and tumor necrosis factor- α , 161
- The interferon sensitivity of selected porcine viruses, 52

Interleukins

- Recombinant human interleukin-2 induced mitogenic proliferation of *in vitro* unstimulated bovine intestinal lymphocytes, 68

Intestinal biopsies

- Follow-up studies by large intestinal biopsies and necropsy in dogs with clinical signs of large bowel disease, 473

L

Lameness

- Electroacupuncture in the treatment of chronic lameness in horses and ponies: A controlled clinical trial, 239
- Factors associated with average daily gain, fever and lameness in beef bulls at the Saskatchewan central feed test station, 349

Large bowel disease

- Follow-up studies by large intestinal biopsies and necropsy in dogs with clinical signs of large bowel disease, 473

Laryngeal hemiplegia

- Attempts to restore abduction of the paralyzed equine arytenoid cartilage I. Nerve-muscle pedicle transplants, 202
- Attempts to restore abduction of the paralyzed equine arytenoid cartilage II. Nerve implantation (pilot study), 210
- Attempts to restore abduction of the paralyzed equine arytenoid cartilage III. Nerve anastomosis, 216

Lenperone hydrochloride

- Effect of lenperone hydrochloride on gastroesophageal sphincter pressure in healthy dogs, 248
- Esophageal acid clearance test in healthy dogs, 244

Leptospira interrogans

- Diagnostic specificity, sensitivity and cross-reactivity of an enzyme-linked immunosorbent assay for the detection of antibody against *Leptospira interrogans* serovars *pomona*, *sejro* and *hardjo* in cattle, 285

Leptospirosis

- The prevalence of leptospirosis and its association with multifocal interstitial nephritis in swine at slaughter, 290

Lidocaine

- Caudal epidural analgesia in cattle using xylazine, 486

Logistic regression

- Prognosis in equine colic patients using multivariable analysis, 87

Lymphocytes

- Isolation, characterization and *in vitro* mitogenic stimulation of peripheral blood lymphocytes from an American buffalo, 493
- Recombinant human interleukin-2 induced mitogenic proliferation of *in vitro* unstimulated bovine intestinal lymphocytes, 68

M

Maedi-visna

- Evaluation of two management procedures for the control of maedi-visna, 419

Mastitis

- Prevention of clinical coliform mastitis in dairy cows by a mutant *Escherichia coli* vaccine, 301
- Relationship between test-day measures of somatic cell count and milk production in California dairy cows, 182

Mice

- Adenocarcinoma of the salivary gland in a white Swiss mouse, 363

Milk composition

- The associations between milk production, milk composition and *Salmonella* in the bulk milk supplies of dairy farms in Ontario, 188

Milk production

- Relationship between test-day measures of somatic cell count and milk production in California dairy cows, 182
- The associations between milk production, milk composition and *Salmonella* in the bulk milk supplies of dairy farms in Ontario, 188

Molecular hybridization

- Hybridization studies with a DNA probe derived from the virulence region of the 60 Mdal plasmid of *Salmonella typhimurium*, 378

Mosquitoes

- Eastern equine encephalitis in Quebec and Connecticut, 1972: Introduction by infected mosquitoes on the wind, 76

Muscle development

- Effects of perinatal high dose dexamethasone on skeletal muscle development in rats, 17

Multiple-breath nitrogen washout

- An evaluation of the multiple-breath nitrogen washout as a pulmonary function test in dairy cattle, 133

Mycobacteriosis

- Environmental source of mycobacteriosis in a California swine herd, 33

Mycoplasma gallisepticum

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48

Mycoplasma hyopneumoniae

- Preparation of *Mycoplasma hyopneumoniae* antigen for the enzyme-linked immunosorbent assay, 176

Mycotoxins

- Influence of dietary charcoal on ochratoxin A toxicity in Leghorn chicks, 449

N

Nematodes

- An assessment of residual ovine nematodes on pasture under Maritime conditions, 340

Nephritis

- The prevalence of leptospirosis and its association with multifocal interstitial nephritis in swine at slaughter, 290

Nephrotoxicity

- Nephrotoxicity of amphotericin B in dogs: A comparison of two methods of administration, 23

Newcastle disease

- Effect of adrenal blocking chemicals on viral and respiratory infections of chickens, 48

Niacin

- Porcine focal symmetrical poliomyelomalacia: Test for an interaction between dietary selenium and niacin, 454

O

Ochratoxin A

- Influence of dietary charcoal on ochratoxin A toxicity in Leghorn chicks, 449

Ormetoprim

- Pharmacokinetics and body fluid and endometrial concentrations of ormetoprim-sulfadimethoxine in mares, 12

Oxytetracycline

- Comparison of conventional and long-acting oxytetracyclines in prevention of induced *Actinobacillus (Haemophilus) pleuropneumoniae* infection of growing swine, 400

P

Parainfluenza type 3 virus

- Bovine herpesvirus-1 and parainfluenza-3 virus interactions: Clinical and immunological response in calves, 62

Paratuberculosis

- Comparison of dot immunobinding assay, enzyme-linked immunosorbent assay and immunodiffusion for serodiagnosis of paratuberculosis, 405

Pasteurella haemolytica

- Induction of pulmonary antibodies to *Pasteurella haemolytica* following intraduodenal stimulation of the gut-associated lymphatic tissue in cattle, 371
- Presence of bacterial glycocalyx and fimbriae on *Pasteurella haemolytica* in feedlot cattle with pneumonic pasteurellosis, 167

Pasteurella multocida

- *Pasteurella multocida* and *Bordetella bronchiseptica* in atrophic rhinitis and pneumonia in swine, 295

Pentoxifylline

- Urinary excretion of pentoxifylline and its metabolites by Standardbred mares, 147

Persistent infections

- Persistent infections of a field strain of rabies virus in murine neuroblastoma (NA-C1300) cell cultures, 445

Pharmacokinetics

- Pharmacokinetics and body fluid and endometrial concentrations of ormetoprim-sulfadimethoxine in mares, 12

Phenylbutazone

- The protective effects of sucralfate and ranitidine in foals experimentally intoxicated with phenylbutazone, 231

Pigs

- Blood gas stability and hematological changes in experimentally-induced acute porcine pleuropneumonia, 95
- Comparative assessment of a double antibody enzyme immunoassay test kit and a triple antibody enzyme immunoassay for the diagnosis of *Trichinella spiralis spiralis* and *Trichinella spiralis nativa* infections in swine, 497
- Comparison of conventional and long-acting oxytetracyclines in prevention of induced *Actinobacillus (Haemophilus) pleuropneumoniae* infection of growing swine, 400
- Detection of African swine fever virus antibodies by immunoblotting assay, 105
- Effect of dexamethasone on gonadotrophin secretion in the gonadectomized sow and boar, 490
- Effects of *Escherichia coli* Shiga-like toxins (verotoxins) in pigs, 306
- Environmental source of mycobacteriosis in a California swine herd, 33
- Influence d'infections préalable sur l'évolution de la pleuropneumonie porcine expérimentale chez des porcs exempts d'organismes pathogènes spécifiques, 394

- *Pasteurella multocida* and *Bordetella bronchiseptica* in atrophic rhinitis and pneumonia in swine, 295
- Porcine circovirus antigens in PK-15 cell line (ATCC CCL 33) and evidence of antibodies to circovirus in Canadian pigs, 431
- Porcine focal symmetrical poliomyelomalacia: Test for an interaction between dietary selenium and niacin, 454
- Preliminary assessment of a *Haemophilus parasuis* bacterin for use in specific pathogen free swine, 390
- Preparation of *Mycoplasma hyopneumoniae* antigen for the enzyme-linked immunosorbent assay, 176
- The interferon sensitivity of selected porcine viruses, 52
- Requirement for capsular antigen KX105 and fimbrial antigen CS1541 in the pathogenicity of porcine enterotoxigenic *Escherichia coli* O8:KX105 strains, 43
- The prevalence of leptospirosis and its association with multifocal interstitial nephritis in swine at slaughter, 290

Plasmid transfer

- Plasmid transfer and plasmid-mediated genetic exchange in *Brucella abortus*, 326

Pleuropneumonia

- Comparison of conventional and long-acting oxytetracyclines in prevention of induced *Actinobacillus (Haemophilus) pleuropneumoniae* infection of growing swine, 400
- Influence d'infections préalables sur l'évolution de la pleuropneumonie porcine expérimentale chez des porcs exempts d'organismes pathogènes spécifiques, 394

Pneumonia

- Blood gas stability and hematological changes in experimentally-induced acute porcine pleuropneumonia, 95
- *Pasteurella multocida* and *Bordetella bronchiseptica* in atrophic rhinitis and pneumonia in swine, 295

Pneumonic pasteurellosis

- Presence of bacterial glycocalyx and fimbriae on *Pasteurella haemolytica* in feedlot cattle with pneumonic pasteurellosis, 167

Polioencephalomalacia

- Sulfur-induced polioencephalomalacia in sheep: Some biochemical changes, 462

Polysulfated glycosaminoglycan

- Effects of intramuscular polysulfated glycosaminoglycan on chemical and physical defects on equine articular cartilage, 224

Porcine focal symmetrical poliomyelomalacia

- Porcine focal symmetrical poliomyelomalacia: Test for an interaction between dietary selenium and niacin, 454

Prostaglandins

- Failure to maintain luteal function: A possible cause of early embryonic loss in a cow, 279

Protein A gold labelling

- Protein A gold identification of ureaplasmas on the bovine zona pellucida, 172

Pulmonary function tests

- An evaluation of the multiple-breath nitrogen washout as a pulmonary function test in dairy cattle, 133
- Simple nonrebreathing valves for use with large mammals, 143

Q

Q fever

- Q fever: An emerging public health concern in Canada, 1

R

Rabies

- Immunization of foxes by the intestinal route using an inactivated rabies vaccine, 56
- Persistent infections of a field strain of rabies virus in murine neuroblastoma (NA-C1300) cell cultures, 445
- Protection of dogs against death from experimental rabies by postexposure administration of rabies vaccine and hyperimmune globulin (human), 434

Rabies vaccines

- Protection of dogs against death from experimental rabies by postexposure administration of rabies vaccine and hyperimmune globulin (human), 434
- Safety and immunogenicity of ERA® strain of rabies virus propagated in a BHK-21 cell line, 438

Ranitidine

- The protective effects of sucralfate and ranitidine in foals experimentally intoxicated with phenylbutazone, 231

Rats

- Effects of perinatal high dose dexamethasone on skeletal muscle development in rats, 17

Renibacterium salmoninarum

- A field evaluation of an indirect fluorescent antibody-based broodstock screening test used to control the vertical transmission of *Renibacterium salmoninarum* in Chinook salmon (*Oncorhynchus tshawytscha*), 385

Reproductive failure

- Failure to maintain luteal function: A possible cause of early embryonic loss in a cow, 279

Respiratory disease

- The frequency, distribution and effects of antibodies, to seven putative respiratory pathogens, on respiratory disease and weight gain in feedlot calves in Ontario, 355

Respiratory syncytial virus

- The detection of bovine respiratory syncytial virus in formalin fixed bovine lung with commercially available monoclonal antibodies and avidin biotin complex immunohistochemistry, 366

S

Salivary gland

- Adenocarcinoma of the salivary gland in a white Swiss mouse, 363

Salmonella

- The prevalence of verocytotoxin-producing *Escherichia coli* and antimicrobial resistance patterns of nonverocytotoxin-producing *Escherichia coli* and *Salmonella* in Ontario broiler chickens, 411

Salmonella typhimurium

- Survival of *Salmonella typhimurium* and *Staphylococcus aureus* in Genoa salami of varying salt concentration, 84

Salmonellosis

- The associations between milk production, milk composition and *Salmonella* in the bulk milk supplies of dairy farms in Ontario, 188

Selenium

- Porcine focal symmetrical poliomyelomalacia: Test for an interaction between dietary selenium and niacin, 454

Seroepidemiology

- The frequency, distribution and effects of antibodies, to seven putative respiratory pathogens, on respiratory disease and weight gain in feedlot calves in Ontario, 355

Serum biochemistry

- Comparison of serum biochemical profiles of male broilers with female broilers and white Leghorn chickens, 7

Sheep

- An assessment of residual ovine nematodes on pasture under Maritime conditions, 340
- Evaluation of two management procedures for the control of maedi-visna, 419
- Experimental trichinosis in sheep, 112
- Morphological studies on the venous drainage of the trachea in the neck of sheep, 255
- Sulfur-induced polioencephalomalacia in sheep: Some biochemical changes, 462
- The use of a microagglutination assay for the detection of antibodies to *Corynebacterium pseudotuberculosis* in naturally infected sheep and goat flocks, 313

Shiga-like toxins

- Effects of *Escherichia coli* Shiga-like toxins (verotoxins) in pigs, 306

Shipping fever

- Presence of bacterial glycocalyx and fimbriae on *Pasteurella haemolytica* in feedlot cattle with pneumonic pasteurellosis, 167

Skeletal muscle

- A comparative histochemical and morphometric study of canine skeletal muscle, 125

Somatic cell counts

- Relationship between test-day measures of somatic cell count and milk production in California dairy cows, 182

Staphylococcus aureus

- Survival of *Salmonella typhimurium* and *Staphylococcus aureus* in Genoa salami of varying salt concentration, 84

Sucralfate

- The protective effects of sucralfate and ranitidine in foals experimentally intoxicated with phenylbutazone, 231

Sudden death syndrome

- Comparison of serum biochemical profiles of male broilers with female broilers and white Leghorn chickens, 7

Sulfadimethoxine

- Pharmacokinetics and body fluid and endometrial concentrations of ormetoprim-sulfadimethoxine in mares, 12

T

Thermal insulation

- Thermal insulation of young calves exposed to cold, 275

Trichinella spiralis spiralis

- Destruction of *Trichinella spiralis spiralis* during the preparation of the "dry cured" pork products prosciutto, prosciuttini and Genoa salami, 80

Trichinosis

- Comparative assessment of a double antibody enzyme immunoassay test kit and a triple antibody enzyme immunoassay for the diagnosis of *Trichinella spiralis spiralis* and *Trichinella spiralis nativa* infections in swine, 497
- Experimental trichinosis in sheep, 112

Tumor necrosis factor

- 2'-5' oligo-A-synthetase activity in bovine peripheral blood leukocytes and alveolar macrophages exposed to recombinant interferons and tumor necrosis factor- α , 161

U

Ureaplasma diversum

- Protein A gold identification of ureaplasmas on the bovine zona pellucida, 172

Vaccination

- Effects of vaccines on the canine immune system, 154
- Immunization of foxes by the intestinal route using an inactivated rabies vaccine, 56

Vaccines

- Prevention of clinical coliform mastitis in dairy cows by a mutant *Escherichia coli* vaccine, 301

Verotoxins

- Effects of *Escherichia coli* Shiga-like toxins (verotoxins) in pigs, 306

Vomiting

- Follow-up studies by peroral gastric biopsies and necropsy in vomiting dogs, 468

X

Xylazine

- Caudal epidural analgesia in cattle using xylazine, 486
